

## **Turner Industries Partners with Independence High School**

Turner Industries is a Program Partner with Independence High School. In this role, Turner provides welding supplies to high schools to aid in developing their welding programs. Through partnerships like this Turner has also sponsored various high school students interested in welding at the ABC (Associated Builders and Contractors) School.

Wayne Tyson, Turner Industries' Workforce Development Training Manager, recently paid a visit to Independence High. During Wayne's time there, he gave a presentation to over 60 juniors and seniors. The presentation consisted of a corporate overview, which helped students gain insight about our company and the wide variety of career opportunities available to young men and women. Wayne also delivered welding supplies that Turner donated to the school's welding instructor, Dwayne Wascom. The donation includes welding rods, face shields, face shield brackets, safety glasses, and ear plugs.
