

# THE **BIG** PICTURE

## *Catalysts - Yes, We Do That*

Turner Specialty Services-Catalyst, Turner's most recent service offering, has been added to bring best practices and state-of-the-art technology, equipment and experience to the refining, chemical and petrochemical industries. Having assembled a core team possessing many years of catalyst industry experience, it is our goal to be more innovative, more professional, more efficient and safer than any other catalyst contractor in the business.

Our catalyst services include:

- Blind to Blind Services
- Bolt Torquing
- Dense Loading/Soft Loading
- Inert/Non-Inert Catalyst Loading & Unloading
- Screening
- Single/Multi-Bed Loading & Unloading
- Tower Work
- Tray Removal and Re-installation
- Video Inspection Services
- Welding Services

Our personnel are dedicated and committed to achieving a Zero Incident work environment. We believe that if employees are knowledgeable in their craft and dedicated to the quality of their work, safety will naturally be a by-product of the work practice.

We pledge to you that Turner Specialty Services-Catalyst will bring to every job our best capabilities to ensure that each project is completed as safely and as cost effectively as possible.

We can say with absolute certainty –  
*Yes We Do That.*
