Fluor Daniel

27 Month Duration

5,706,300 Workhours

Pipe testing 3,074 each

14,127 tons of steel

683,747 LF of Piping

Equipment 977 each

- Turner supplied labor for the Warehouse and Laydown yards for the entire project, as well as the Mechanical Construction for the six (6) major Process Units.
- The work included the manning of (3) separate laydown areas, as well as several different warehouses, and consisted of offloads of over 100 trucks (floats, low-boys and 18 wheeler) per day.
- Turner self performed all work with the exception of non-destructive testing and post weld heat treating.
